## INTRODUCTION

This inventory lists the complete range of long term care services in the Hamilton-Wentworth region. Long term care is defined as that which is required for physical or mental well being over a period greater than 60 days; and which is based either in an institution or in the community.

The criteria for inclusion in the inventory are:

Is care provided?

Is the care necessary to everyday function?

Will it be required for more than sixty days?

The information is divided into five categories:

Institutions

Residences

Community Delivered Services

Child and Adolescent Services

Recreational Services

Some services have been included in the section "Community Delivered Services" which do not accurately fulfill the criteria. However, it was recognized that some support services are required as an adjunct to long term care programs.

The Long Term Care Task Force of the Hamilton-Wentworth District Health Council is indebted to the following as the major sources of information in the preparation of the inventory:

The Directory of Community Services, 1979-80: Community Information Service Hamilton-Wentworth

Patient Care Classification by Types of Care: Ontario Ministry of Health publication # 78-1513 6/78

The Assessment and Placement Services of the Hamilton-Wentworth District Health Council

The co-operation of directors, administrators, and others responsible for the programs listed, is gratefully acknowledged.

TABLE A4

<u>Patient characteristics (criteria)</u>	<u>Program description</u>	<u>Delivery sites</u>
1. The medical condition is known to be stabilized or under clinical control;	1. Basic living requirements; room, board and laundry;	1. Own home (private family living);
2. the person has one of the following: a) physical and/or mental frailty b) congenital handicap; c) disability due to previous illness or injury;	2. responsible supervision and access to periodic medical care, and professional nursing services;	2. boarding home;
3. the person should be independently ambulatory (with or without mechanical aids) or independently mobile in a wheelchair;	3. personal care and assistance with activities of daily living;	3. sheltered boarding house;
4. the person is limited mentally or physically in his ability to care properly for himself independently;	4. provision for special diets;	4. home for the aged;
5. the care required is primarily supervision and assistance with activities of daily living;	5. supervision of medication;	5. hostel;
6. the treatment, if any, is standardized and includes only maintenance, medication and preventive services.	6. social and recreational opportunities;	6. or some "nursing homes",
	7. ADL aids and equipment such as hand-rails, grab-bars and walkers, etc.	7. manors;
		8. lodges
		9. residences.

TYPE 2 CARE  
(Extended Health)

TABLE A5

<u>Patient characteristics (criteria)</u>	<u>Program Description</u>	<u>Delivery Sites</u>
1. diagnosis has been established;	1. Continuous care with medical and professional nursing supervision;	1. the private home with appropriate services;
2. the patient has a chronic disease or a functional disability;	2. limited skilled nursing techniques;	2. more commonly, in a nursing home, home for the aged, or charitable institution.
3. as demonstrated by previous assessment and response to treatment there is little or no rehabilitation potential;	3. mechanical aids for patient care, such as grab-bars, wheelchairs and walkers, etc;	
4. the disease process is relatively stabilized;	4. social and recreational services;	
5. there is a limited need for diagnostic and therapeutic services;	5. part-time consultant P.T. and O.T. services available;	
6. the individual's need is primarily availability of personal care on a continuing 24-hr. basis with professional nursing supervision, limited skilled nursing techniques and medical services appropriate to the patient's needs;	6. special diets;	
7. a prolonged period of care is anticipated, i.e., the patient's condition is expected to remain significantly unchanged in the near future.	7. drugs and medical supplies.	

TYPE 3 CARE  
(Chronic)

TABLE A6

<u>Patient characteristics (criteria)</u>	<u>Program description</u>	<u>Delivery sites</u>
<ol style="list-style-type: none"> <li>1. The diagnosis is established;</li> <li>2. the patient has a chronic illness;</li> <li>3. the acute phase of the illness is over or is subsiding</li> </ol> <p>AND one or more of the following conditions must exist:</p> <ol style="list-style-type: none"> <li>4. the patient has rehabilitation potential which can best be realized through a slow-paced program;</li> <li>5. the disease process requires medical management to achieve clinical control;</li> <li>6. evidence of significant change presently occurring in the patient's condition, e.g., improvement, relapse, deterioration or progression of disease;</li> <li>7. a need for nursing care with professional nursing supervision on a continuing 24-hr. basis.</li> </ol>	<ol style="list-style-type: none"> <li>1. A private home with appropriate services;</li> <li>2. a hospital for the chronically ill;</li> <li>3. a hospital unit designed, equipped and staffed for care of the chronically ill; or</li> <li>4. a nursing home approved for chronic care.</li> </ol>

## TYPE 4 CARE

TABLE A7(Special Rehabilitative)

<u>Patient Characteristics (criteria)</u>	<u>Program description</u>	<u>Delivery Sites</u>
1. The diagnosis has been established;	1. Specialized medical management, specialized professional and technical services;	1. Specialized rehabilitation centres on an in-patient or out-patient basis.
2. the acute phase of illness is over or is subsiding;	2. specialized physical medicine facilities for exercise, hydrotherapy and provision of prosthetic and orthotic devices, etc.	
3. the patient has a demonstrated functional impediment or impairment;		
4. the need is related to a functional deficit, requiring primarily specialized assessment, treatment, adaption and training.		

TABLE A8

FUNDING SCHEDULE FOR TYPE 2 INSTITUTIONAL CARE

Monthly rates as of 1st of Nov., 1981 (Proportionate charges and monthly rates subject to change)

Rates quoted are for standard ward accommodation (3 or more persons in same room)

Private and semi-private accommodation at additional cost to resident

** Resident payment		* Extended Care Benefit Subsidy	Total Monthly
\$ 387.23		636.91	1,034.14

\* To be eligible for the E.C.B. subsidy, the applicant must have been a resident of Ontario and a contributor to O.H.I.P. for the immediate preceding 12 months. If not eligible, the resident is responsible for the full monthly rate.

\*\* Various provincial/municipal subsidies are available in some circumstances

Hamilton-Wentworth Region has three active treatment hospitals; Chedoke-McMaster Hospital (two locations: Chedoke Division and McMaster Division), Hamilton Civic Hospitals (two locations: Hamilton General and Henderson General) and St. Joseph's Hospital.

Long term psychiatric services are provided by the Hamilton Psychiatric Hospital.

Chronic care services (Type 3) are provided by St. Peter's Hospital and by chronic care units in the Chedoke and McMaster Divisions of Chedoke-McMaster Hospital, and St. Joseph's Hospital. The Region is served by 17 nursing homes, five homes for the aged, and one Ontario Psychiatric Hospital.

Tables A1, A2 and A3 describe the bed allocations in the institutions. Tables A4 - A7 define Types of Care excluding Acute, according to Ontario Ministry of Health guidelines. Table 8 explains the fee schedule.

Nursing Homes are required to make available a minimum of 75% of the licensed bed capacity to persons receiving Extended Care Benefits (Type 2) the remainder may be maintained for the use of Intermediate Care (Type 1). (Ministry of Health statistics show that less than 1% of all Nursing Home facilities are occupied by persons at the intermediate level).

In addition, some of the licensed nursing home beds may also be licensed under the Homes for Special Care Act (1964) and occupied by persons discharged from psychiatric hospitals.

Bed capacity licensing and fee schedules are controlled by the Ontario Ministry of Health under the Nursing Homes Act (1972).

Homes for the Aged may provide Type 1 or Type 2 care. Again, the number of beds which may be used for Type 2 care are subject to government regulations controlled by the Ministry of Community and Social Services under the Homes for the Aged and Rest Homes Act and Charitable Institutions Act (1970). Fee schedules for Type 2 care in homes for the aged and nursing homes are the same for the patient co-payment, although total costs differ. Residential care fees vary with the institution.

### RESIDENCES

There is a variety of residences in the area which provide accommodation for persons who cannot fully care for themselves. Included in this group are boarding homes, rest homes, retirement homes, lodging houses, group homes etc. The city has licensed 89 of these homes in the last year. We have included in our inventory those homes which are known to house people who have long term health care needs.

The majority of facilities listed in this section provide lodging, meals, cleaning, laundry and supervision to Senior Citizens or the mentally and/or physically disabled. Some facilities specialize in persons with a history of alcoholism; others with the mentally retarded. The Homes for Special Care Program also supervise a number of group homes for discharged psychiatric patients.

### COMMUNITY DELIVERED SERVICES

Listed in this section are services which can be provided to persons living at home who can no longer cope with the activities of daily living without additional assistance. These services range from professional care, i.e., nursing, physiotherapy, to volunteer programs, i.e., Cancer Society counselling.

CHILD & ADOLESCENT SERVICES

Residential facilities, assessment, treatment and recreational programs listed in this section generally are available to persons 18 years of age or under. However, some services are available up to age 21 and, in some cases, may extend beyond that.

The institutions outside this Region which house some of our severely retarded children are not listed.

Most children with long term illnesses are maintained at home with the help of community delivered support services.
